

## XV WORKSHOP ON ENERGY AND ENVIRONMENTAL ECONOMICS (WE&EE)<sup>1</sup>

*Seville, June 12<sup>th</sup>, 2024*

The Workshop on Energy and Environmental Economics (WE&EE) is an expanding network of analysts concerned with energy and environmental issues. Created in 2014 by Cátedra de Economía de la Energía y del Medio Ambiente and the Department of Economic Analysis and Political Economy of the University of Sevilla, the WE&EE provides researchers the opportunity to share their research results and/or ideas. Through selected paper, it will identify pressing public policy issues and emerging research themes on Energy and environmental economics. Ample time will be allocated for discussion, allowing researchers to get feedback from other workshop participants. PhD candidates are especially encouraged to participate. The WE&EE provides networking and development opportunities for participants.

### Topics of interest

Energy Economics

Environment Economics

Clean and circular economy

Electricity and Energy markets

Renewable energy and low carbon technologies

Energy and emission modeling

Other topics in the field are welcome.

Energy Sustainable Development

Energy Efficiency
