

XVII WORKSHOP ON ENERGY AND ENVIRONMENTAL ECONOMICS (WE&EE)¹

Seville, June 10th 2026

The Workshop on Energy and Environmental Economics (WE&EE) is a growing network of analysts interested in energy and environmental issues. Created in 2014 by the Chair of Energy and Environmental Economics and the Department of Economic Analysis and Political Economy at the University of Seville, WE&EE offers researchers the opportunity to share their research results and/or ideas. Through a selection of papers, pressing public policy issues and new lines of research in the field of energy and environmental economics will be identified. Sufficient time will be devoted to discussion with peer reviewers, allowing researchers to receive feedback and interact with other workshop participants. PhD students are especially encouraged to participate. WE&EE offers networking and professional development opportunities for participants.

Topics of interest

Energy Economics
Environmental Economics
Clean and circular economy
Electricity and Energy markets
Energy Sustainable Development
Energy Efficiency
Renewable energy and low carbon technologies
Energy and emission modeling
Other topics in the field are welcome
Energy Security

Deadlines

- Deadline for submission of papers: May 10th 2026
- Deadline for acceptance of papers: May 17th 2026
- Registration of presenters: from May 17th to June 3rd 2026
